<u>**README file**</u>

Replication Code for

"Corruption, Trade Costs and Gains from Tariff Liberalization: Evidence from Southern Africa"

Sandra Sequeira -- London School of Economics

1. Do File: "Replication_Code". To be used with Stata, version 14.

This code will replicate all Tables 1-19 in the main paper

2. There are four datasets:

Bribes.dta

Bribes_Regression.dta

Firms.dta

Trade_Flows.dta

Trade_Gaps.dta

3. All variables are labelled in the respective datasets

4. The analysis is based on primary data on firms and bribes, and secondary data on trade flows and trade gaps obtained from the **United Nations Comtrade Database (http://comtrade.un.org/db/)**, for trade between Mozambique, South Africa and the Rest of the World (excluding South Africa) between 2006 and 2014
